600 SERIES

KIP 650 / 660

ENGINEERED TO **EXCEED EXPECTATIONS.**

Daily Productivity, Image Quality & Workplace Flexibility

The KIP 600 is revolutionising wide format colour printing and establishing new standards for wide format reliability. The KIP 600 Series delivers efficiency with precision imaging in a compact durable design that will connect workgroups to new levels of print management productivity.

STATE - OF - THE- ART TECHNOLOGY

Contact Control Technology (CCT) is inspired by our pursuit to deliver the ultimate wide format imaging solution.

The ability to control the placement of the toner particles through direct contact at every stage of image development ensures the highest level of accuracy and precision quality in the production of every colour or black and white image.

PRINT WITH CONFIDENCE

Workflow Automation simplifies everyday multi-step printing processes. Produce sets of black & white, colour, or mixed sets of images and automatically, size, rotate or collate with touch of your fingertips.

EXTRAORDINARY PRODUCTIVITY

KIP's consistent speed technology ensures there is never a delay when printing complex files or high coverage images. Every document is printed at full rated engine speed ensuring that schedules and time lines are met day after day.

COMPACT BY DESIGN

The compact design ensures placement in locations previously not suitable for wide format colour production systems. Built on a single footprint platform and available in MFP or Printer configurations, the KIP 600 will provide real flexibility in any workflow environment.

PRECISION IMAGING

Advanced toner technology controls the image with precise dot placement with colour registration that delivers smooth colour and expressive black & white image quality.

Vibrant colours and soft hues express your conceptional ideas; while true black printing ensures bold rich lines and fine details with pinpoint accuracy that are easy to read.

WORKPLACE EFFICIENCY

Consistently produce 360 D/A1 size prints per hour in full colour, black and white or in mixed sets. Integrated high quality colour scanner, two media rolls and top/front image stacking allows busy environments to benefit from greater productivity and workplace efficiency without interruption.

IMAGE DURABILITY

KIP CCT pressure fuses toner into the media producing prints that hold up to heat, friction, scratching and repeated handling that can quickly destroy image quality.

Waterproof | Smear proof | UV Resistant | Highlighter Safe | Archivable

KIP SYSTEM K SOFTWARE

BE MORE PRODUCTIVE

KIP SYSTEM K SOFTWARE
Included in All KIP Systems
Seamless Control of Black & White and Colour Files
Single Software Platform | Cloud Solutions
Print System Management | Advanced Security
Automated Workflow Management
Continuous Enhancement of Features & Functions

KIP IMAGEPRO
One Application for All Wide Format Imaging
Colour Management with Colour Space Flexibility | Professional Cost Control |
Anytime, Anywhere KIP Cloud Connect | Secure Solutions

POWERFUL CONTROL TO
OPTIMISE YOUR WORKFLOW.

Everything you need at your fingertips. The KIP 12.1" touchscreen has true smart tablet function. Effortlessly complete projects with workflow automation that drives productivity. Customisable technology offers a full range of connectivity and intuitive navigation that keeps you in sync with how you want to work.

Print, Copy and Scan | Workflow Automation | High Definition Viewer | Touchscreen Customisation | Area of Interest Printing | Print Quality Presets | KIP Cloud Connect | Pictorial Feature Guides

KIP 650

KIP 660

- KIP Contact Control Technology | Exact control of toner particles through every stage of image development
- Compact by Design | Fits in small spaces and more places
- Workplace Efficiency | 360 Prints per Hour | Integrated Colour Scanner, Two Media Roll and Top/Front Stacking
- Extraordinary Productivity | Uninterrupted printing at rated engine speed regardless of file complexity or image coverage
- Workflow Optimisation | True Smart Tablet function with intuitive navigation and automation
- Precision Imaging | Pinpoint accuracy, vivid colours and true black printing
- Image Durability | Delivers waterproof, UV resistant, highlighter safe images that are resistant to heat, friction and repeated handling

KIP 600 Series Designed for our planet.

KIP 600 Series Contact Control Technology has a reduced carbon footprint and is ozone free. Our goal is to consistently improve and refine the technologies that keep our planet green.

Customers increasingly value environmental aspects of products, such as energy efficiency, emissions reduction and the ability to recycle exhausted supply containers. We differentiate our products by integrating such features to deliver a low total cost of ownership and an improved user experience

SUSTAINABILITY
In packaging, we strive to minimise the overall use of materials, utilise recycled and recyclable materials when possible and reduce packaging size and weight to minimise transportation fuel impact.

ENVIRONMENTAL MANAGEMENT SYSTEMS STANDARD
KIP factories operate in full compliance with the strict code of the ISO 14001 Environmental Management Systems Standard, which provides the requirements for organisations wishing to operate in an environmentally sustainable manner.
